

Q&A, roundup and a little promotion

By Thomas Christensen (DMC)

The Open Digital Incubator

This seminar was brought to you

by the Open Digital Incubator

Recording will be available on the website

Possibly also the presentations...

digitalincubator.maritimeconnectivity.net

And we may do it again

Any thought on how to improve?

email: thomas@dmc.international

The Open Digital Incubator

Purpose:

- Implement technical services following specifications made by IALA, IHO, ...
- Support each other on the process
- Provide barrier reducing features like;
 - The SECOM library (java)
 - The language bindings repository
- Test interoperability of the implemented services
- Provide feedback to the standardizing organizations

- Test interoperability of the implemented services
- Provide feedback to the standardizing organisations

Who:

- GRAD
- Fintraffic
- DMC
- Haris
- AlVeNautics
- Elman
- KRISO
- DMA

Who:

- SMA
- CCG
- AMSA
- DLR
- GMT
- FTIA
- + more
- Special guest
 - IALA + IHO

The Open Digital Incubator

We have mentioned the services:

- Navigational Warnings (S-124)
- AtoN information (S-125 / S-201)
- UKC (S-129)
- VTS Traffic Clearance Service (S-212)
- VTS VTS Information Service (S-212)
- Marine Protected Area (S-122)
- Route exchange (S-421)
- ...

Based on SECOM and MCP

That is what we are promoting in the maritime community

MMS could potentially play a bigger role
